

Compucolor II. You may not have thought of all the reasons for buying a personal computer. There are exciting games, of course, but what about financial management, household records, even income tax? You need a versatile, sophisticated machine that's as limitless

The personal computer for the enterprising mind.

as your imagination. You need the Compucolor II.

It costs \$1495* That's an exceptional price for a system with an 8-color, 13" display screen, a built-in mini-disk drive, and 8K of user RAM. In fact the Compucolor II has the best cost/performance ratio available in a personal computer. And the price is tax deductible to the extent that you use it in personal tax computation or income-related applications. Consult your tax adviser for full details.

Completely portable, the hardware consists of a full-color screen and detachable keyboard. Simply plug it into the nearest outlet. Programming is easy, with 16K Extended Disk BASIC capabilities stored in ROM. You can also buy low-cost software. Our Sof-Disk™ programs cover a variety of exciting and practical applications. With them, you can beat the Compucolor II at its own games, guide investment decisions, tutor your children, handle financial records, and more.

To find out how much more, visit your nearest computer store. Compare all the systems. You'll choose the Compucolor II.
